

Service benefits: customized, added value, economical

Individual crash-package

Recommended for customer specific solutions and special heads; includes wear as well as specialty parts.

Spare parts management

We can deliver original parts with high availability.

Repair Service

In case of a repair we will fix the damage within the shortest possible time frame. On request we will perform a general overhaul.

ExpressService

Benefit from our Express Service with its short throughput time for a fixed price.

Preventive maintenance

We maintain the ideal state of your angle head and will gladly work on the maintenance during your shutdown periods.

Inquiry form for Angle Heads

For a complete quote, please copy this questionnaire and fill out this form. If there are any problems, our technical staff will be glad to assist you.
